

News Release: Invensys® and TiPS™ Announce Global Alarm Management Solutions Partnership

Release Date: Immediate (March 30, 2006)

From: TiPS, Inc., USA

Media Contact: Chris Wilson, (512) 863-3653 x 520, [chris@tipsweb.com](mailto:chris@tipsweb.com)

TiPS and Invensys Process Systems® today announced an alarm management solutions partnership. Under this agreement, Invensys will use the TiPS LogMate® AMS™ alarm management software system as one of the technology foundations for the company's Alarm Management Monitor, part of a suite of services designed to help customers optimize overall asset performance by aligning plant operations and maintenance with the organization's business goals. Invensys selected LogMate based on excellent technical quality and product support.

"TiPS and Invensys share similar alarm management philosophies. Specifically, both companies view effective alarm management as a continuous process, rather than a one-time project," said Chris Wilson, Marketing Manager for TiPS, Incorporated.

David Spencer, Director of Global Services Marketing at Invensys Process Systems, added "Everything we do is designed to improve either the availability or utilization of our customers' installed production assets, or both. Effective alarm management represents a key component of this strategy and we're pleased to add TiPS to our growing roster of partners who are helping us to make our asset performance management vision a practical reality."

Invensys Alarm Management Monitor services and LogMate AMS are available through standard Invensys sales channels. Readers can contact Invensys Process Systems ([www.invensys.com/ps](http://www.invensys.com/ps)) or TiPS ([www.tipsweb.com](http://www.tipsweb.com)) for more information.

#### About Invensys Process Systems:

Invensys Process Systems, a business unit of Invensys plc ([www.invensys.com](http://www.invensys.com)), is the world leader in industrial asset performance management. In addition to its rapidly expanding Global Solutions group, Invensys Process Systems includes industry-leading brands such as Foxboro®, Triconex®, SimSci-Esscor®, Wonderware®, and Avantis®, whose products are installed in more than 100,000 plants across the world. These range from small hybrid and batch plants to the world's largest upstream projects, refineries, gas plants, petrochemicals plants, power plants, and pulp and paper mills.

#### About TiPS:

TiPS is a pioneer in alarm management software, producing the first version of LogMate in 1990. LogMate has been refined over 16 years and hundreds of installations around the globe. TiPS prides itself on quality, stable, feature-rich products that excel against the highest standards of value. TiPS is a thought leader in alarm management, committed to education and empowerment of our current and future clients. Find out more at [www.tipsweb.com](http://www.tipsweb.com).
